

## Return on Investment

The Kern County Health Care Coalition (KCHCC) invites you to partner with us. Partnership includes many valuable elements that will assist your agency in preparedness efforts. In addition to your participation, we place a high value on coalition members' benefits which include, but are not limited to the following:

- Support prior to, during, and after incidents of significance.
- Assistance with facility Preparedness Assessments and Hazard Vulnerability Assessment Plans.
- Assistance with implementing and review of Emergency Operation Plans.
- Opportunity to network.
- Provision of an information sharing environment wherein like-agencies are able to share best practices/lessons learned.
- Support actions that promote more efficient use of resources during exercises and actual events through coordinated emergency preparedness and response.
- Assistance with understanding requirements and regulations from (CMS) Centers for Medicare & Medicaid Services Emergency Preparedness Final Rule as they apply to specific facilities and operations.
- Eligibility for membership in ReddiNet a web-based emergency medical communications data system that monitors and reports hospital, patient, and emergency event status that also allows for resource requests to be placed in real time during a disaster event.
- HPP qualified healthcare entities may be eligible to receive Hospital Preparedness Program grant funding.
